**Date: 05/13/2010**

### **Royal Technologies Corporation to open a new molding facility in Cullman, AL**

VPres. Kirk Lambers advised that the company plans to open a newly constructed 200,000 sq. ft. facility located on 26.6 acres of land in Cullman, AL in the Fall of 2010. The new facility will operate as an injection molding, assembly, decorating and urethane foam production plant and is needed to company's growing customer base in the Southeast. Once the company opens its Cullman location, approximately 200 to 300 new jobs will be created, with up to 400 jobs possible in future phases of expansion. The company's five-year investment for the project, including land, construction and equipment, is expected to total around \$30 million. DW 5/2010
